Trip to San K'än 13-26 Feb

14 February 9:30-11:00 explored area behind station. Mist net lines have been extended from Arubal to forest more. It was hot. I saw few birds. I did see 3-7 Lear Flignters (including 4 or 5 in the youngest eyegape. I saw 1 Mospuzi. 2nd young wood: 1 Penue, 2 Yellow hawks. 1 Earl Virgin, 2 Hooded Orioles, 3 Ocellated Turkeys.

7/12:30 I drove along rd. beyond station. I took one small trail into woods & saw 2 Hooded (most have been "9") & an Owlbird. A Lear Flycatcher & Earl Virgin.
4-6:00 I worked along road

2 km beyond station, I saw 2
antwrens - both had groups of
Yellow Jays making lots of noise
& diving on ground. Both groups
confirmed my generalization that
young (I.e. Yellow-billed birds)
that online come closer more.

At first Antwren I had
1000, Hooded, & Red-winged Saucer
1 hooded, 10 saucers

I saw 3-4 l. E. union - sol'lls or
on lower marshy sparrow flats.
only 2 Navigo, 1 adult blue-winged
swan, 2 hood 1 BtB, h+ s, saw 4-6
Red-tailed (Beech), 2-3 Black

warblers in mixed flocks. 1-2 more
Least Flycatchers.

Day List

Birds

Turkey Vulture & Osprey Party

Kestrel Chickadee

Amazon Sp.

Vigorous Tanager

Pelted Billed Woodpecker

Golden-fronted Woodpecker

Red-winged Saucer

Red-throated Billed 3 - boots along road.

Feb 15
6:300 worked 2nd growth area of mist-nest grad. L. the evening until 2:00.
Saw Sitketa c.e., Muriel, Red-stirrt, Sea-gr-trh, Dew and loins. Saw several loins my way out
in middle of low pasture land. Worked for tii harder with little luck.

10-1100 worked trail across meadow from entrance to station, found 1 old trail = room - saw pretty nothing.
1 Mile: c.ev. 
2 Miles: 2 large pools, 1 small, about 00 - 1:00 left my way out Rd to 1:20
C.oast. Followed Black - old road the
Great Bear. I followed it several ken.
See previous p. for why I was -

Side road
has minor not grid

Good

Minor
Possibly too many small facts
All
- broadly known facts
- slightly less known
- highly known
- elementary
Possible census routes:

1. Forest
   a) across from station
   b) the mist not said road 2 3 km read
   c) extension of mist not that behind station

2. Forest new clearing
   a) Reach on road
   b) Behind station

3. Second growth edge
   Mist not area

4. Graded second growth

5. Other second growth
Needed to do-

1. Set up 2km trails & mark city room
2. Purchase conduit for mist netting

- Equipment

Questions
1. Phenology censuses
2. Permission
3. 

Capturing birds
Fort field shots, range of 1,400 yd, good visibility, both sides expected available. Angled running water.
